What I Like About You Marisa Kanter,2020-04-07 Can a love triangle have only two people in it? Online, it can...but in the real world, its more complicated. In this debut novel that’s perfect for fans of Jenny Han and Morgan Matson, Marisa Kanter hilariously and poignantly explores what happens when internet friends turn into IRL crushes. Is it still a love triangle if there are only two people in it? There are a million things that Halle Levitt likes about her online best friend, Nash. He’s an incredibly talented graphic novelist. He loves books almost as much as she does. And she never has to deal with the awkwardness of seeing him in real life. They can talk about anything... Except who she really is. Because online, Halle isn’t Halle—she’s Kels, the enigmatically cool creator of *One True Pastry*, a YA book blog that pairs epic custom cupcakes with covers and reviews. Kels has everything Halle doesn’t: friends, a growing platform, tons of confidence, and Nash. That is, until Halle arrives to spend senior year in Gramps’s small town and finds herself face-to-face with real, human, not-behind-a-screen Nash. Nash, who is somehow everywhere she goes—in her classes, at the bakery, even at synagogue. Nash who has no idea she’s actually Kels. If Halle tells him who she is, it will ruin the non-awkward magic of their digital friendship. Not telling him though, means it can never be anything more. Because while she starts to fall for Nash as Halle...he’s in love with Kels.

Ultralearning Scott Young, 2019-08-06 Now a Wall Street Journal bestseller. Learn a new talent, stay relevant, reinvent yourself, and adapt to whatever the workplace throws your way. Ultralearning offers nine principles to master hard skills quickly. This is the essential guide to future-proof your career and maximize your competitive advantage through self-education. In these tumultuous times of economic and technological change, staying ahead depends on continual self-education—a lifelong mastery of fresh ideas, subjects, and skills. If you want to accomplish more and stand apart from everyone else, you need to become an ultralearner. The challenge of learning new skills is that you think you already know how best to learn, as you did as a student, so you rerun old routines and old ways of solving problems. To counter that, Ultralearning offers powerful strategies to break you out of those mental ruts and introduces new training methods to help you push through to higher levels of retention. Scott H. Young incorporates the latest research about the most effective learning methods and the stories of other ultralearners like himself—among them Benjamin Franklin, chess grandmaster Judit Polgár, and Nobel laureate physicist Richard Feynman, as well as a host of others, such as little-known modern polymath Nigel Richards, who won the French World Scrabble Championship—without knowing French. Young documents the methods he and others have used to acquire knowledge and shows that, far from being an obscure skill limited to aggressive autodidacts, ultralearning is a powerful tool anyone can use to improve their career, studies, and life. Ultralearning explores this fascinating subculture, shares a proven framework for a successful ultralearning project, and offers insights into how you can organize and execute a plan to learn anything deeply and quickly, without teachers or budget-busting tuition costs. Whether the goal is to be fluent in a language (or ten languages), earn the equivalent of a college degree in a fraction of the time, or master multiple tools to build a product or business from the ground up, the principles in Ultralearning will guide you to success.

Leading With Emotional Courage Peter Bregman, 2018-06-05 The Wall Street Journal bestselling author of 18 Minutes unlocks the secrets of highly successful leaders and pinpoints the missing ingredient that makes all the difference You have the opportunity to lead: to show up with confidence, connected to others, and committed to a purpose in a way that inspires others to follow. Maybe it's in your workplace, or in your relationships, or simply in your own life. But great leadership—leadership that aligns teams, inspires action, and achieves results—is hard. And what makes it hard isn't theoretical, it's practical. It's not about knowing what to say or do. It's about whether you're willing to experience the discomfort, risk, and uncertainty of saying or doing it. In other words, the most critical challenge of leadership is emotional courage. If you are willing to feel everything, you can do anything. Leading with Emotional Courage, based on the author's popular blogs for Harvard Business Review, provides practical, real-world advice for building your emotional courage muscle. Each short, easy to read chapter details a distinct step in this emotional "workout," giving you grounded advice for handling

the difficult situations without sacrificing professional ground. By building the courage to say the necessary but difficult things, you become a stronger leader and leave the “should’ve’s” behind. Theoretically, leadership is straightforward, but how many people actually lead? The gap between theory and practice is huge. Emotional courage is what bridges that gap. It’s what sets great leaders apart from the rest. It gets results. It cuts through the distractions, the noise, and the politics to solve problems and get things done. This book is packed with actionable steps you can take to start building these skills now. Have the courage to speak up when others remain silent Be stable and grounded in the face of uncertainty Respond productively to opposition without getting distracted Weather others’ anger without shutting down or getting defensive Leading with Emotional Courage coaches you to build your emotional courage, exercise it effectively, and create an environment in which people around you take accountability to get hard things done.
